

Selection's User Manual

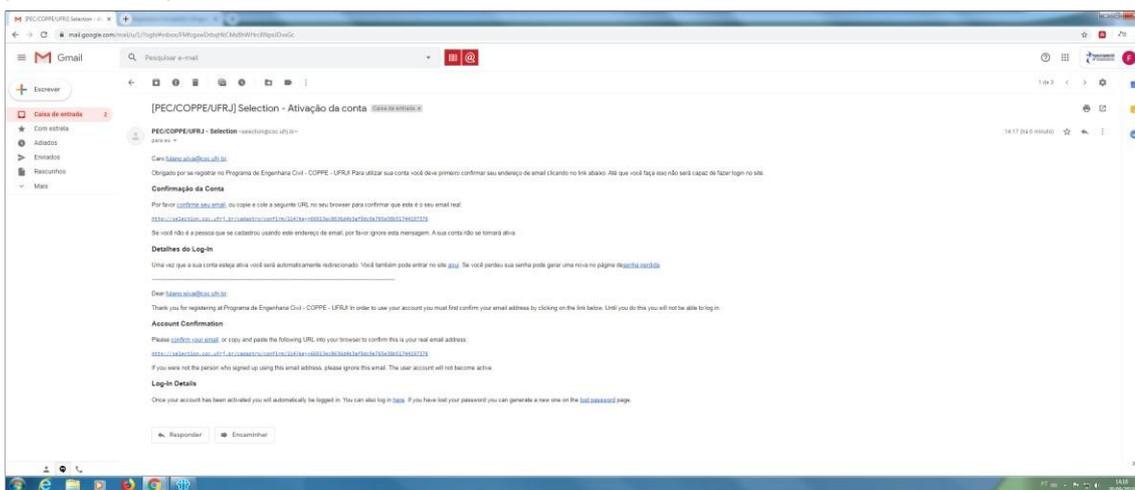

1- In the homepage, click on "Click here to register"

2- Fill the fields with your personal data

3- You will receive, in your e-mail, a message with a link to activate your login. If you didn't receive, please check your SPAM folder..

4- Click in the link to enable your login in the system. You will receive the message below confirming that your access is granted to the system.

5- At this point you can go back to <http://selection.coc.ufrj.br> to access the system filling with your registered e-mail and password

6- Just click in the "Registration" option to start filling your data to apply. Good luck!

IMPORTANT NOTES:

- Avoid creating more than one registration in the system, this can cause confusion at the end of the registration period, with duplicate information from the same candidate. If you have done so, inform by email suporte@coc.ufrj.br which email should be considered valid for the registration.
- Be sure to register for the past few days! During this period, the system tends to slow down due to the greater number of simultaneous registrations, which can hinder your registration process.
